

WELCOME TO THE COVID-19 VACCINE CLINIC

3 easy steps to get protected

1 - Register

Fill out paperwork to register for the vaccine.

- You do not need insurance or identification
- Staff and volunteers will assist you

2 – Get your vaccine

The healthcare provider will:

- Review your paperwork
- Ask you health questions
- Administer the vaccine
- Give you a vaccination card that shows today's date and the type of vaccine you received

3 – Wait time and health education

You will need to wait for 15 or 30 minutes after the vaccination to make sure you do not have a reaction requiring medical care.

Our staff will:

- Guide you to the waiting area
- Answer your questions and give you health education and other resources

CONGRATULATIONS

Report symptoms

You can help keep the vaccine safe for yourself and others by using one of the following to report any symptoms you have.

V-safe

Sends you text reminders about your second dose and to report your symptoms.
